Summary

I'm a Python backend developer finishing my M.Sc. while shipping actual projects. My work covers REST APIs with FastAPI and Flask, RAG-based chatbots, and a full-stack voice assistant with a SvelteKit frontend. I've also built a face recognition attendance system using OpenCV. I care about clean APIs, fast iteration, and making AI do something useful rather than just impressive.

Projects

Medical Chatbot (RAG-Based)	March 2026
Built a RAG chatbot that answers medical questions from uploaded PDFs. Used HuggingFace embeddings to retrieve relevant chunks before sending them to the LLM, which made responses more grounded than a plain prompt would give you.	
https://github.com/rathod-pritesh/end-to-end-medical-chatbot-generative-ai	
AI Voice Assistant	August 2025 - December 2025
Built a voice assistant that takes audio input, runs intent recognition with a transformer model, and returns structured responses through a FastAPI backend. Connected it to a SvelteKit frontend. The harder part was keeping latency low enough that it didn't feel broken.	
https://github.com/rathod-pritesh/ai-voice-assistant	
BuildTrack Construction Management System	September 2024 - March 2025
Full-stack construction management app with project tracking and attendance built on Flask and MySQL. Used OpenCV face recognition to handle attendance automatically rather than through manual check-ins. CRUD operations for site data, with a reporting dashboard for operations summaries.	
https://github.com/rathod-pritesh/BuildTrack-construction-management-system	
EcommerceTrack	April 2026
REST API backend for e-commerce analytics. Endpoints return top spenders, revenue by category, and order volume by city. Wrote a Faker seed script to populate the database with test order data so the analytics had something real to run against.

Skills

Languages

Python, JavaScript

Backend

FastAPI, Flask, LangChain, REST APIs

Frontend

SvelteKit, Tailwind CSS

Databases

MySQL, MongoDB

Tools

Docker, Git, OpenCV, HuggingFace

Education

K. S School of Business Management and Information Technology

Bachelor of Science in Computer Application & Information Technology • 3.45/5
Ahmedabad, Gujarat • July 2022- April 2025

K. S School of Business Management and Information Technology
Master of Science in Computer Application & Information Technology • 3.64 (Up to semester 7)
Ahmedabad, Gujarat • July 2025- May 2027
